

The SAKATA ADVANTAGE *Broccoli*

Emerald Crown

Emerald Crown is a medium maturing, very uniform, tight, heavy headed, domed variety with small beads that are blue green in color on a small framed plant. The variety's growing season is warm to cool (not for rainy season). This variety can extend the Green Magic slot into cold due to its resistance to purpling. Produces excellent quality crown cuts/short trim in all NAFTA regions.

<i>Relative Maturity</i>	<i>Plant</i>	<i>Head Color</i>	<i>Head Characteristics</i>	<i>Bead Size</i>	<i>Disease Resistance</i>	<i>Uses & Remarks</i>
<i>Direct Seeded</i>	<i>Height</i>					
93 days	Compact	Blue-green	Semi-domed	Small		Produces excellent quality crown cuts/short trim product in all NAFTA regions. Highly resistant to purpling.

DISCLAIMER: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling as it contains Sakata Seed America, Inc. terms and conditions of sale.
